Rishika Gupta

has successfully completed the online, non-credit Specialization

C, Go, and C++: A Comprehensive Introduction to Programming

C, Go, and C++ are foundational programming languages used across many industries. In this specialization, learners acquired the fundamentals of coding in C, Go, and C++ programming languages, including a deep understanding of computer programming and algorithms, conversion of C to C++ and Go, and the ability to use all three programs to solve complex problems.

Ira Pohl, Professor Emeritus, Computer Science and Engineering, Baskin School of Engineering, UC Santa Cruz
